***“Anybody can grow old, but it takes work to become an elder.”***

Rabbi Zalman Schachter-Shalomi

**What does it take to become an “elder” -- a respected, integral member of our community, sharing our life experiences and considering our legacy?**

**Join with others to explore a path to elderhood as we create a renewed sense of optimism in this half-day workshop.**

**Lynne Iser** was introduced to the ideas of becoming an elder, at the relatively young age of 40, as she helped to co-found the Spiritual Eldering Institute. She is the creator of Elder-Activists.org; and teaches at many conferences and retreat centers about growing older, the work of Joanna Macy, and how we can create a thriving and just world for our descendants.
